YORK UNIVERSITY MOTION MEDIA STUDIO (YUMMS)

YUMMS is an inter-disciplinary studio space open to the pursuit of exploration and innovation with a special focus on film production, performance, immersive environments, and virtual production.

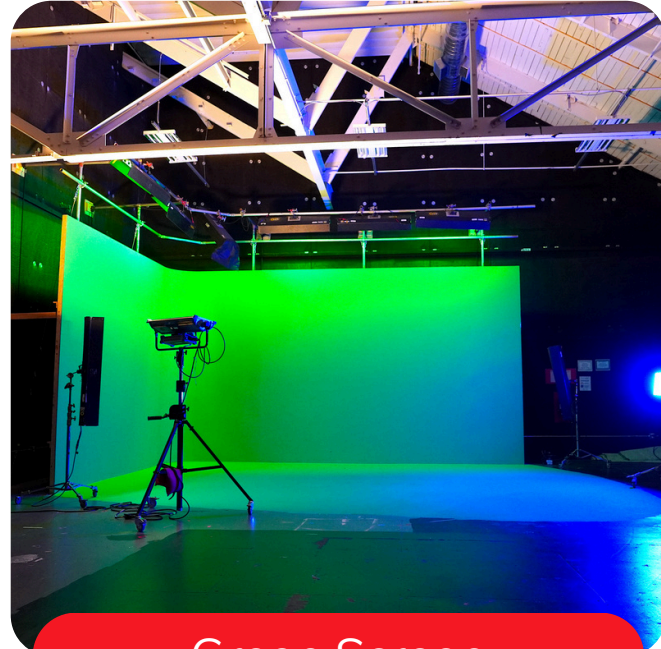

Located within Cinespace's expansive production complex, YUMMS students benefit from access to industry leaders and a network of support in the heart of a state-of-the-art facility where internationally acclaimed feature films and series are made such as: *The Shape of Water*, *Chicago*, *Mean Girls*, *Resident Evil*, *Chucky*, *Law & Order*, *Titans*, *The Umbrella Academy*, *The Handmaid's Tale* and Guillermo del Toro's upcoming feature, *Frankenstein*.

We provide access to hands-on training via courses, micro-credentials, masterclasses, panels, workshops, and professional opportunities. We believe that inclusivity is the backbone of a healthy, thriving creative sector. The more diverse voices, experiences, and backgrounds represented in every aspect of the screen and media industries, the more it will flourish with cultural expression and sustainable employment for the foreseeable future.

YUMMS MULTI-USE SPACES

To provide an exceptional filmmaking and teaching environment, we have made significant infrastructure improvements at YUMMS.

Green Screen

For virtual production, special effects, new media projects and immersive filmmaking, our GREEN SCREEN significantly expands creative possibilities for our students.

Standing Set

Complete with windows, fly-away walls, and electrical setups, our STANDING SET allows students to explore and experiment with different lighting techniques.

Studios & Lounge

Ideal for read-throughs, rehearsals, tutorials, and small classes, our STUDIOS & LOUNGES have become a favourite spot for everyone visiting YUMMS.

Classrooms

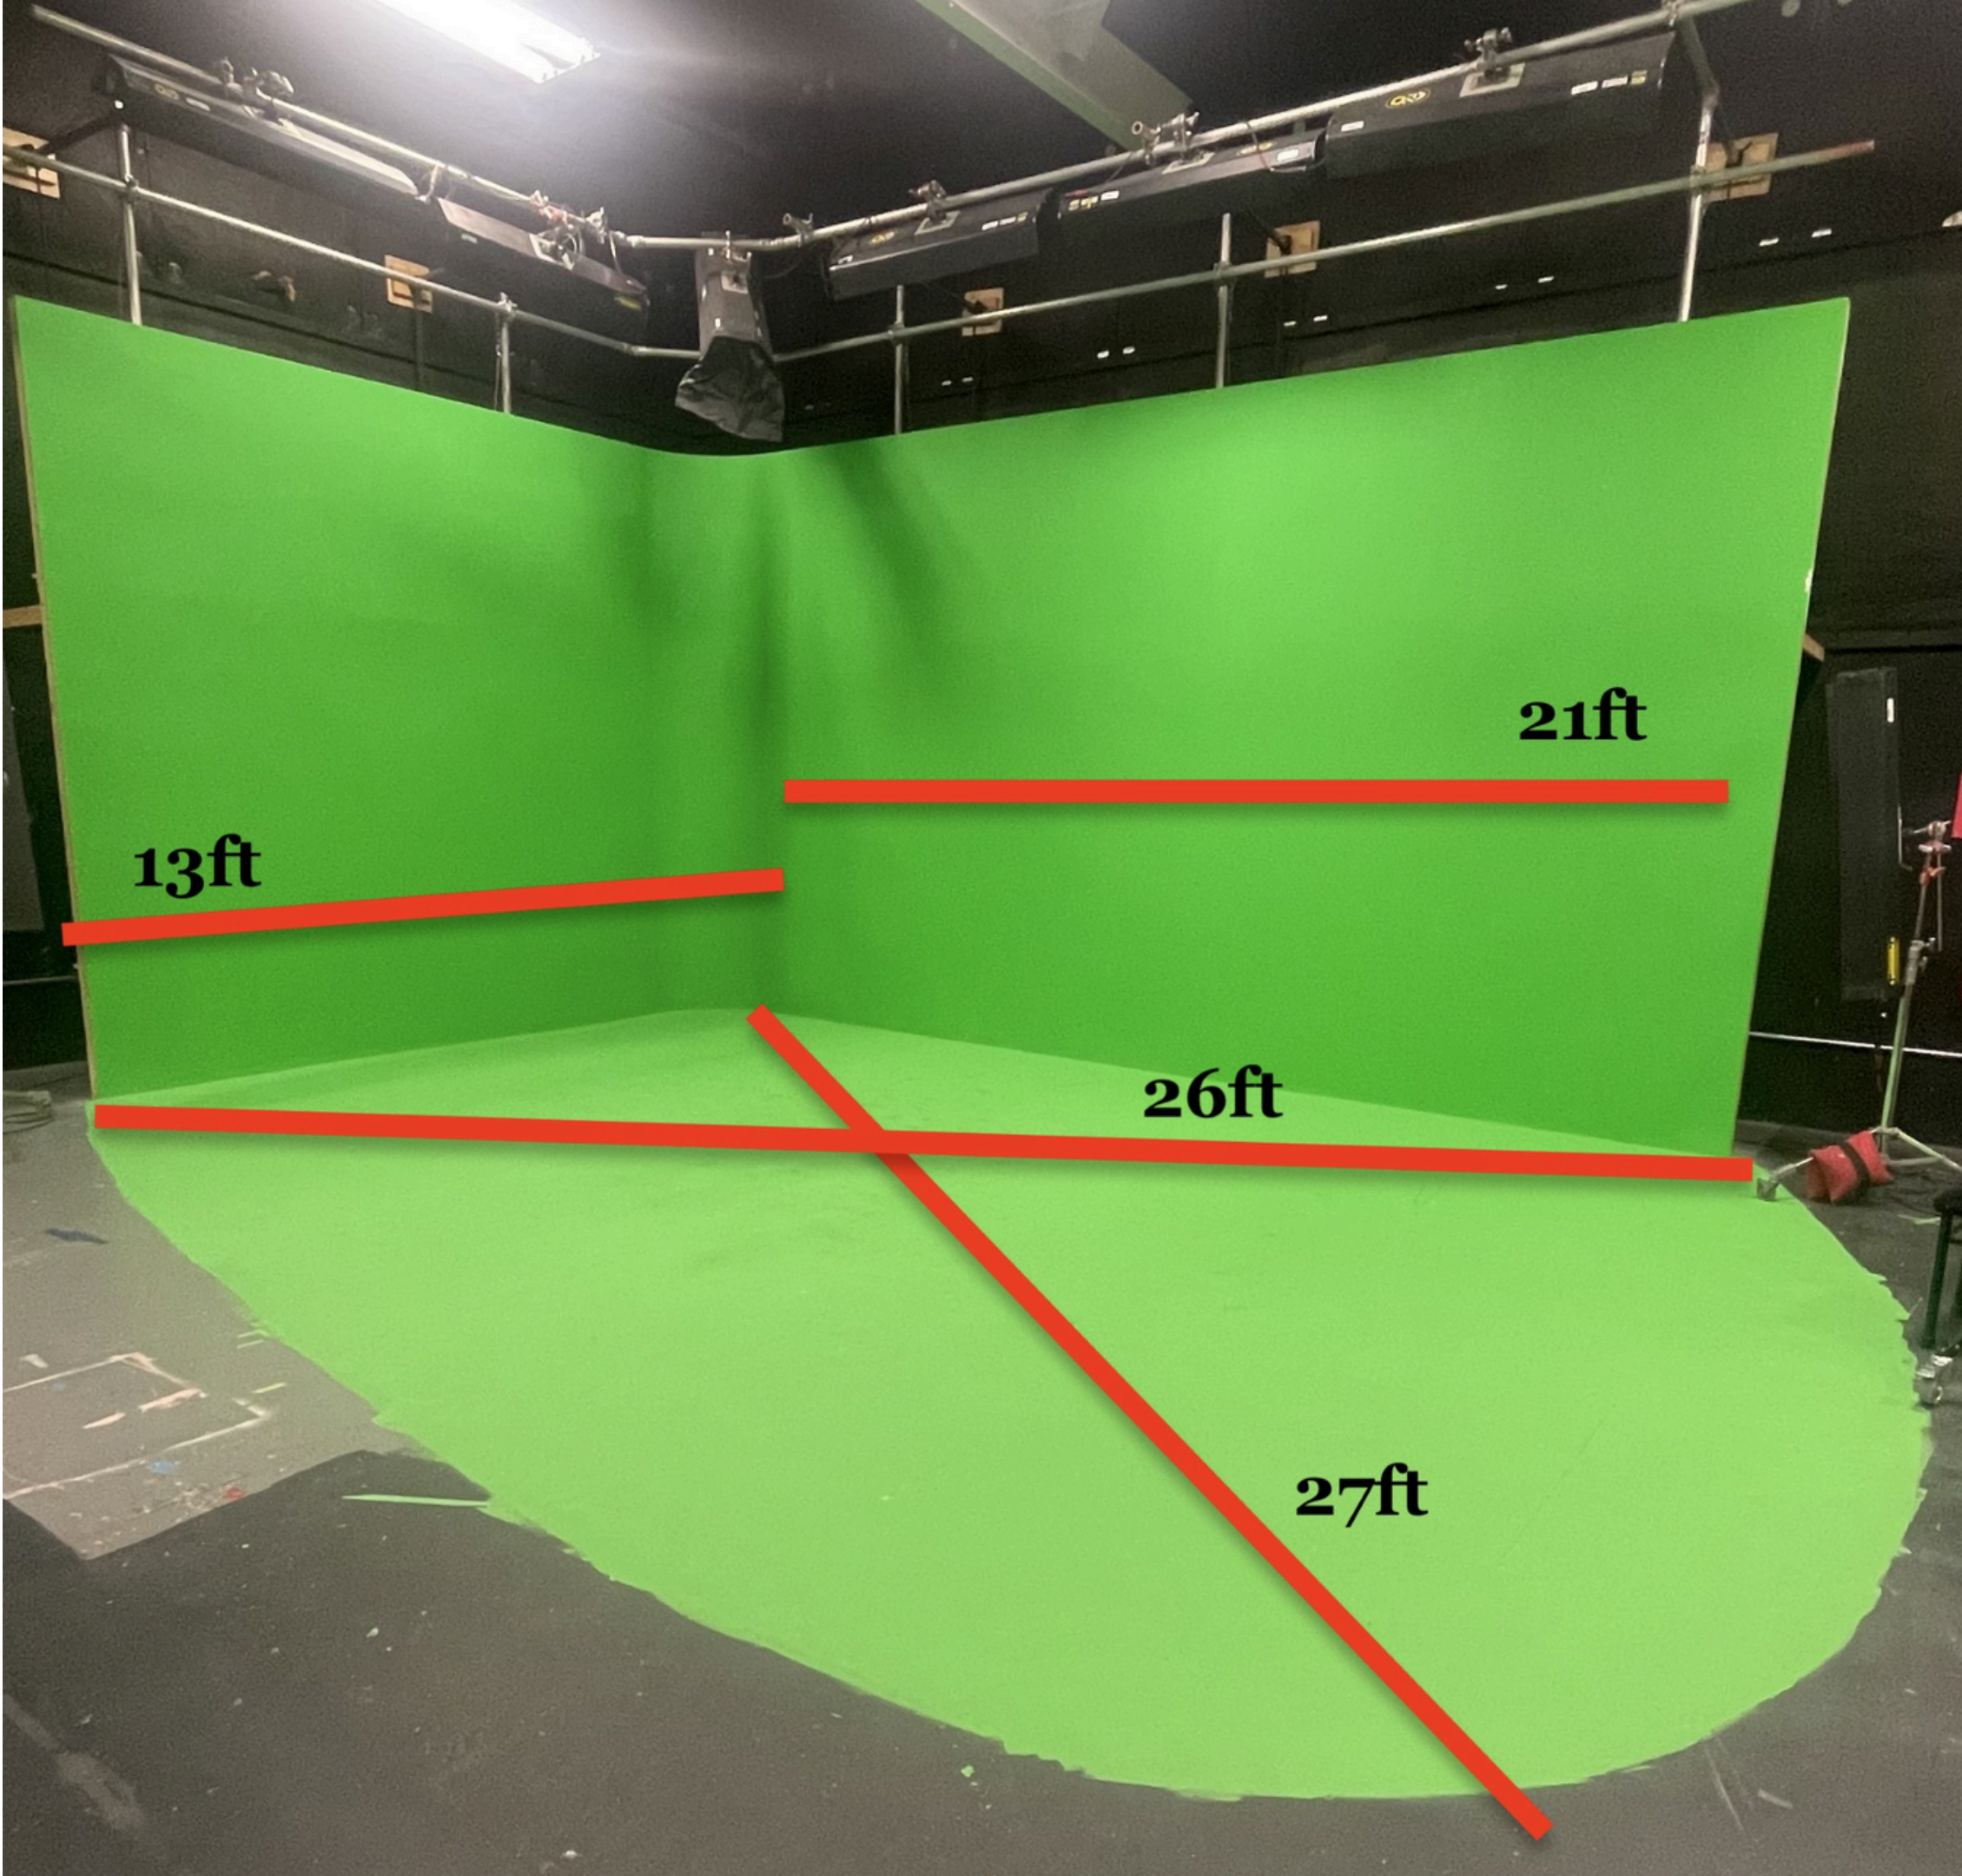

Equipped with projectors, monitors, whiteboards, speakers, tables, chairs and a podium, our stages are versatile teaching/learning spaces ready to service 50+ students.

STAGE 1

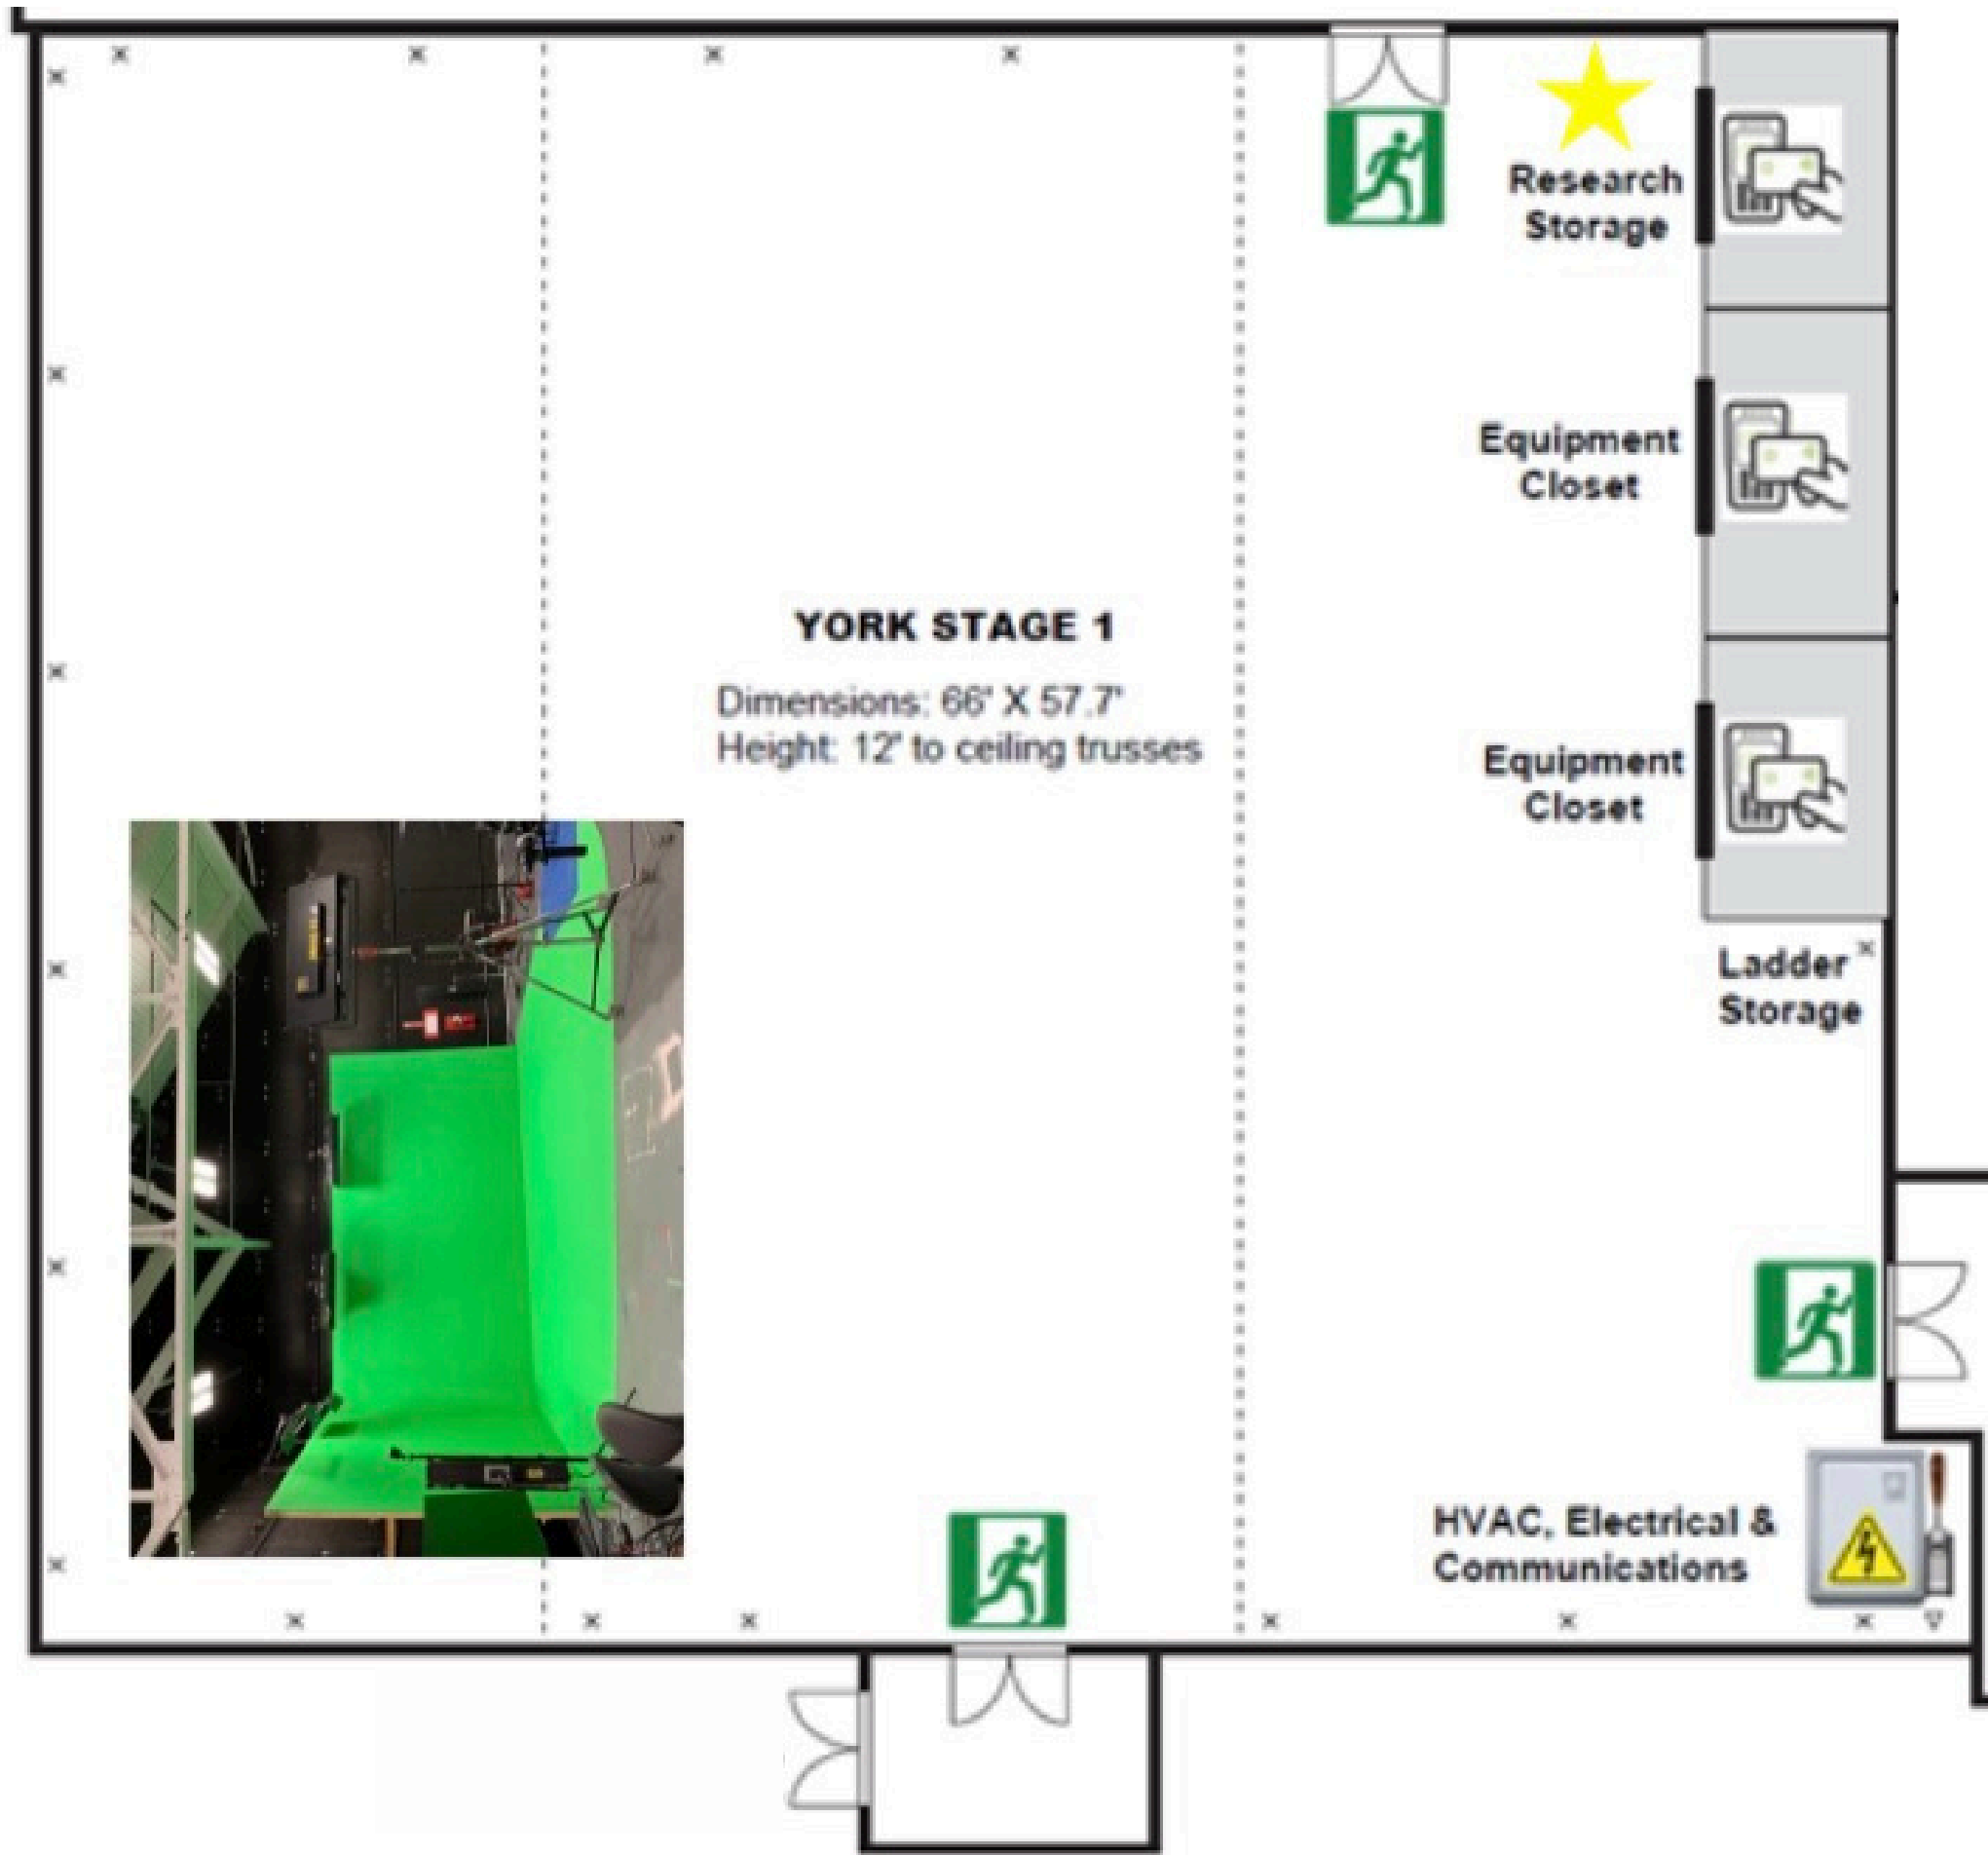

- 3,500 sq ft
- For virtual production, special effects, new media projects and immersive filmmaking.
- Our STAGE 1 Green Screen significantly expands creative possibilities for our students.
